Hosted by Impreza WRX Club - 62 runners – 28 from our club .

A fine warm spring day. Two minor delay where cars needed recovery (one with a small oil fire) but there were 6 runs for each group plus another 2 runs for combined groups at the end of the day. 8 runs for anyone who wanted them.

No major issues for WRX Club members but Paul Hanney had a throttle cable break and while waiting for recovery had a small oil fire start with oil dripping onto the hot exhaust. It was extinguished straight away by the fire crew but a good lesson - check you cars for oil leaks!!
