* New Lap Record

Hosted by NSWRRRC - 61 runners – 20 from our club .

No major issues for WRX Club members that I have been made aware of, but Jeremy Henderson, driving long time club member Nick Gericitano's car had a major accident at the flip-flop. Jeremy spent the night in Westmead Hospital but last I heard he was sore & sorry but generally OK and should be out Sunday. He was sharing the car with Corey Cooke.

It is interesting to note that the Henderson/Cooke car was presented to scrutineering fitted with basically unused race seat and harness. However these were knocked back as they were deemed to be out of date. Jeremy & Corey then borrowed the standard seat & lap sash belt from Dave Gillies road car so they could compete. There is no date on the road car items - they could have been older than the seat & harness they had to replace.
