\* New Lap Record

Hosted by Vic WRX - 112 runners – 26 from our club .

Terrific to see that many of our members make the long run south.

We'll run event apart from overly pedantic & long scrutineering process with a different standard applied to that used at the AROCA event on Saturday.

Day was cool & overcast in the morning with showers mid afternoon.

None of our members had any significant problems with all cars either driven onto their trailers or driven home.
